Summer Camp Improves Lives!

What a difference a summer makes! Five days a week, six hours a day...students and conductors shared giggles, smiles, laughter and lots of fun while maintaining or improving valuable life skills for standing, walking, eating, personal hygiene, fine motor and gross motor skills! Your donations ARE making a difference!

SPECIAL THANKS!

Thank you to our host families for sharing their homes with our conductors:

Cindy & Tim Stone

Anna Helm & Robert Kurz

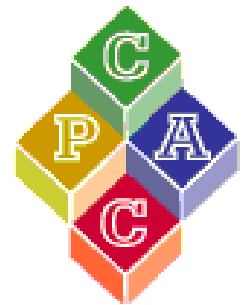

Thank you to Michael Gilman for donating the use of his car for the conductors' use during their 5-week stay in the United States.

Can you help us next year? Please contact CPAC!

Reflections of Camp 2009

By Gale Lowery, mother of Chad Lowery

Chad loved summer camp because he was part of a group and involved in so many different activities. Some of the activities included a Hungarian Circus and Puppet show (performed by the conductors), massage & stretches, circle time, music & song, art, endurance, sitting & balance and so much more. Chad's favorite activity was swimming! This program integrated fun into all of the therapeutic activities which allowed the students to focus on the task longer. The Grand Finale was the musical performance of "The Lion King" — Look out Broadway — Here We Come!

Chad Lowery shows off his medal!

COMBINED FEDERAL
CAMPAIGN (CFC) —

The Cerebral Palsy Ability Center (CPAC) is a participant charity in the CFC. Please designate your CFC donation to CPAC, and ask your friends who work for the Federal Government to designate CFC# 35992! (page 47 in the booklet) Thank you for remembering us!!

WHAT A GREAT IDEA!!

Amy Stone has been in CPAC's program for more than ten years! As a dedicated advocate for conductive education herself, Amy decided to "just do it"! For her 14th birthday, instead of a traditional birthday party she had a fundraising party! All monies raised went to charities with \$400 going to CPAC!!
What a generous donation — Way To Go Amy!!
